WELLINGTON: A woman checking the price tag beside a shelf of Dumex baby formula, which uses the New Zealand dairy Fonterra as its raw material supplier, at a store in Tiching, in central China’s Hubei province. Tests show a further 195 samples in laboratories in New Zealand and Japan. “It is not possible to store sperm at room temperature for more than a few days, so the production has to be done locally on each planet,” said Takehito Kaneko of the University of Tokyo.
