KUWAIT: State Minister for Housing Affairs Yasser Abul inaugurates the exhibition.

INDUSTRIES AND CONSTRUCTION EXPO KICKS OFF

By Khalid Al-Subaih

KUWAIT: The three-day Industries & Construction Expo kicked off yesterday at Le Meridien Hotel. Yasser Abul, State Minister for Housing Affairs, inaugurated the exhibition that has seen participation by over 60 government and private companies. The exhibition is organized by the National Industries Company and Expo Tag for Organization Exhibitions & Conference Co to help local products and industries in Kuwait.

Yasser Abul said the exhibition played an important role in promoting local products and services. The products being showcased are not just branded ones, but highly trusted and valued state-of-the-art products. The minister also mentioned the housing units offered by the Public Authority for Housing Welfare (PAHW) in 2014 have exceeded 50 percent of the target for the year. Over 5,500 housing units have already been handed over to recipients. Yasser Abul also stressed that falling oil prices have not taken a toll on the housing projects in the country. “The authority is capable of achieving the 2014 target by the end of the year,” he mentioned. The ministry and the authority have developed mechanisms to avoid falling oil prices from affecting housing projects and oil prices, since such services are directly related to people’s lives. "Ooredoo's 2015 corporate social responsibility agenda, which places great importance on youth and students, is taking part out of keenness on "reaching out to people and interacting with them". He added that such gatherings offer a good chance to reply to people’s inquiries, noting that the KCB's elite team at the exhibition directs visitors to the best choices on the banks loans. According to Mutal3, total loans offered to 134,469 people by the KCB since it was established till July 31 hit KD 7.14 billion. This 4th Industries and Construction Exhibition keeps pace with the development in the country, offering the best products, the latest in the construction industry worldwide, Deputy Chairman and CEO of the National Industries Company (NIC) Abd Khalid Al-Subaih said. He added that the exhibition has come to constitute an annual gathering that focuses on the national industries and construction and decor. Subaih pointed to the keenness of the organizers to make the display area large and distinctive in order to allow the sponsors and participants to provide what they want with all the special accessories. Subaih pointed out that the 4th edition of the exhibition is characterized by offering new concepts in addition to various companies for visitors' services, which provide everything required in the field of building, construction and decor. Subaih said the companies participating in the exhibition will provide all building, construction, decor and building materials which include thermal insulation, different types of cooling systems, water heaters, false ceilings, internal partitions, doors, windows, shutters and different types of marble, paints, cement products, steel structures, reinforcement steel, wooden doors, different types of blinds, concrete cast boards, aluminum, walls and sky-lights, electric doors, electric panels, types of metal and granite, sanitawares sets and accessories, different types of marble, paints, cement products and sanitaryware sets. In addition to a large choice of various products which include thermal insulation, different types of cooling systems, water heaters, false ceilings, internal partitions, doors, windows, shutters and different types of marble, paints, cement products, steel structures, reinforcement steel, wooden doors, different types of blinds, concrete cast boards, aluminum, walls and sky-lights, electric doors, electric panels, types of metal and granite, sanitawares sets and accessories, different types of marble, paints, cement products and sanitaryware sets.
