STAR TRACK

Aries (March 21-April 19)

It might feel as if someone stole your wallet or broke your heart today. Or perhaps you're the one who is raining on someone else's parade by withholding affection. You may be experiencing a sense of loss if you think you're coming up short in the money or love department. However dissatisfied you are with your current circumstances, there is a silver lining to the dark cloud above you as you learn to temporarily get by with less. Keep the faith; your clarity will enable you to define what you truly want once the blue skies return.

Taurus (April 20-May 20)

The people who you think know you the best don't seem to understand you at all today. To make matters worse, the harder you try to explain your feelings, the more distance you create. Instead of rushing to bridge the gulf, calmly accept the space that has appeared between you and a loved one. A healthy relationship has its own rhythm of expansion and contraction, like the breath. Instead of trying to control this process, just observe it. There's no need to push for resolution now; simply allow the emotional tide to ebb and flow at its own natural pace.

Gemini (May 21-June 20)

Too many chores on your to-do list prevent you from getting closer to your loved ones today. You don't have the luxury of engaging in open-ended conversations about your feelings. The issues you want to explore must be postponed to another time. Instead of pining over what you don't have now, let it go. Focusing on the lack of heart connection only spirals you into loneliness. Concentrate on what you can do to raise your game when it comes to relationships. Upgrading your emotional quotient will improve your interactions with people once repressive Saturn moves out of the way.

Cancer (June 21-July 22)

Although you often like to maintain a fairly low profile, you want others to stand up and take notice of you today. Unfortunately, it may seem as if you can't get the respect you think you deserve, no matter how awesome your work is now. Don't let anyone shake your confidence; if you know you're doing your best, just let the criticism roll off you like water off a duck's back. The truth is self-esteem comes from within and not from others.

Leo (July 23-August 22)

Love's sweet indulgences are on your mind, but grumpy Saturn has a different plan for your day. Expressing your passion doesn't work its usual magic today. Unfortunately, laying on the charm won't affect others if they are already entrenched in a serious mindset. You're ready to put on a show, but you're quick to pack your bags and head home if there's no audience to appreciate your performance. Nevertheless, don't make the mistake of believing it's an all-or-nothing deal when the lesson is about scaling back your expectations. Work now, play later.

Virgo (August 23-September 22)

You might keep your romantic dreams to yourself now if you believe they will never come true. Meanwhile, your friends contribute in their own way to your current sense of isolation without even knowing it. Although you may interact with others socially, it seems as if they're having trouble seeing the real you. Your lack of communication could inadvertently fuel the tension. Obviously, sharing your heart is scary because it exposes your vulnerability. However, communicating your feelings is the antidote to the victim mentality you may find yourself susceptible to. Self-empowerment begins with self-expression.

Libra (September 23-October 22)

You can't seem to please your boss or your coworkers today no matter what you do. Although this discord would usually bother you enough to turn your self-confidence into self-doubt, you currently have a much more straightforward response in mind. You just want to wish everyone luck and go home. Naturally, you would prefer for others to appreciate your efforts, but you're not going to make peace now even if you try. Let others be annoyed with you if they must but don't let their opinions bring you down.

Scorpio (October 23-November 21)

Money may be tight these days and romance is nowhere to be found. However, these stressful circumstances are not valid reasons to give up and hide under the covers. Instead of wasting precious time feeling sorry for yourself, reevaluate the ways you can improve your current fiscal situation and upgrade your relationship life. Quit worrying about everyone else and just focus on striving to be the best version of you possible. The love you need to cultivate is the love for yourself.

Sagittarius (November 22-December 21)

The secrets you keep buried have more influence now that vulnerable Venus is squaring austere Saturn in your 12th House of Privacy. It seems as if reality can't live up to your fantasies now no matter what you do. You might even feel like your dreams are being squashed for no reason. However, your frustration will lessen when you stop trying to make your life as perfect as it is in your imagination. Graciously accepting the difference between your inner world and the external circumstances puts you back on the road to gratitude and harmony.

Capricorn (December 22-January 19)

It's hard to read people because their behavior is unpredictable and their expression inscrutable. In fact, the more questions you ask, the more they clam up while four planets are hanging out in self-protective Cancer and your 7th House of Companions. Although your gentle persistence could surprisingly bring positive results, you'll never know if you surrender too soon. There is a delicate dance between being overly demanding and just shrugging your shoulders and walking away. Finding that sweet spot turns your frustration into success.

Aquarius (January 20- February 18)

You have to be a worker bee today when you would rather be a social butterfly. You may feel as if you're the only one who has to meet a demanding production schedule, but the truth of the matter is everyone — you included — must contribute to the greater good. Unfortunately, you might have to move personal relationships to the back burner temporarily while you take care of urgent matters of business now. Responsibility is a matter of integrity.

Pisces (February 19-March 20)

You have to be a worker bee today when you would rather be a social butterfly. You may feel as if you're the only one who has to meet a demanding production schedule, but the truth of the matter is everyone — you included — must contribute to the greater good. Unfortunately, you might have to move personal relationships to the back burner temporarily while you take care of urgent matters of business now. Responsibility is a matter of integrity.
