TACTICS OF BATTLE FOR IRAQ’S MOSUL

Enforcement then declines

Iraq forces will battle to retake Mosul for the second time in the last five years as the US-led anti-ISIS campaign nears a major milestone.

The took Mosul in early 2017, but lost it later that year as the city became an ISIS stronghold.

The US-led coalition has been planning the Mosul offensive for months, and has been training Iraqi forces to prepare for the battle.

The operation is expected to be the biggest of its kind since the US-led invasion of Iraq in 2003.

The goal is to retake Mosul and stabilize the region, which has been ravaged by violence and displacement for years.

The operation is expected to take several months and could involve thousands of troops.
