KUWAIT: The General Department of Civil Defense organized an evacuation drill at the General Department of Residency Affairs’ building, featuring participation from other Interior Ministry departments.

A bedouin was arrested for running over and killing a 29-year-old Canadian woman along Gulf Road, said security sources.

KFH announces partnership with Society of Industrial Engineering

KUWAIT: KFH Finance House (KFH) announced that KFH has entered into an agreement with the Society of Industrial Engineering, which offers the bank’s branches, customers and the Kuwaiti youth, particularly the students, free seminars on the industrial processes and the cultural and social activities organized by the association at the Petroleum Engineering College.

KFH is especially focused on supporting healthcare-focused initiatives, in its efforts to promote a greater sense of health consciousness across the country, added Haji, explaining that the initiative comes within the context of its holistic and robust social responsibility program, in line with its efforts to promote a culture of volunteering, collaborative initiatives and non-profit programs nationwide.

Arabs’ tears... game over!

Videogames usually end with the phrase ‘Game Over;’ this time the winner is declared and the points are scored, the Arab world is currently experiencing a very serious gameplay played by players with different goals and implications. This dangerous game is not one we are not selected and the points are scored, but a serious crisis in the Arab world which is the biggest loser in this game because it has not created positive points and is up to the victims in negative ones.

An Asian was arrested on arrival at the airport with 2 kg of heroin, said security sources, adding that the customs stopped and seized the drugs as they were trying to smuggle them into the country.
