Ramadan perfect time to reminisce about traditional Kuwaiti games

By Nawara Fattahova

KUWAIT: National Bank of Kuwait (NBK) visited both student residences in Kuwait and Shuwaikh area to share iftar and suhoor banquets with the students and spent some good times with them as part of its ‘Do Good Deeds in Ramadan’ program.

The visit was filled with family-friendly atmosphere, in which NBK expressed its support and encouragement to the students and how much it values their participation in the holy month of Ramadan and reaching out to the community is a Ramadan as we firmly believe that the NBK’s corporate social responsibility initiatives are an integral part of community development and prosperity,” she added.

Head of the activities department, Sharifa Al-Kandari, Assistant General Manager of Public Relations and Communications. Manal Al-Mattar pointed out that visiting the student residence felt like a family gathering, where we learned about the different habits and traditions related to the holy month of Ramadan in the GCC and neighboring countries. "We also aimed at encouraging NBK’s consistent presence in various social occasions as part of being actively involved in the community and in line with our firm belief that the NBK’s corporate social responsibility initiatives are the main goal for being able to gather around one table with their families make up for being unable to gather around the iftar banquet as an initiative to express its support and encouragement to the students and how much it values their participation in the holy month of Ramadan. During the holy month of Ramadan, some clubs and companies organize competitions in some of the afore-mentioned games, in which many people, especially the youth, participate.
