STAR TRACK

Aries (March 21-April 19)

Even though you know your life is being flooded with psychic phenomena now, you're reticent to tell anyone. That's because you know how others may raise their eyebrows behind your back. Family can be the worst. They say the proof is in the pudding and you have pudding on your face right now from seeing your gut pan out correctly. Because it has, you've been using this gift more and more. That's a good thing. Keep that bit of information to yourself and use it at your discretion. Knowing what can work for you makes life better in every way. Have family or friends over today. Try to have fun.

Taurus (April 20-May 20)

You plan a great vacation today that takes you away from work and any other encumbrances you may have. Perhaps you want to travel to far-away places with a cabin on the water or study a writer's travel itinerary through a favorite fiction book. Whatever you want to do, think about it before you put your vacation plans into stone. Love is in the air and invites you to spend time with that special someone. You may even be asking yourself today if your life is going to be more than what you're used to now. If so, you are in control. Make it what you want.

Gemini (May 21-June 20)

Your life takes on a mystical quality you know well. Gut feelings present themselves and you're aware that you need to follow them. What's funny is that others see your intuition as part of your practical thoughts. They've followed your gut before when you admitted it came from something higher than you. That decision made a huge difference in their lives as well when it panned out to be right on. Something you started yesterday will produce magnificent results later. Take the time to enjoy a celebration with friends and family later.

Cancer (June 21-July 22)

You have a strong need for being taken care of even when you're taking care of others. It's understandable after the week you've had. Try to take time to enjoy your day and the familial embrace you get when at home. Trying to relax now may be just the thing you need. Forceful thinking and communication have those you love from family to friends listening and taking mental note of what you mention now. Be careful because a little bit of anger is like water on concrete. It goes a long way quickly. This may cause you issues when you say the wrong thing. Think before putting your mouth into gear.

Leo (July 23-August 22)

What you weren't so tolerant of yesterday, Karma has brought back to you with a vengeance. Psychic situations will be here for you, for some time to come. Who are you going to admonish for this, Leo? Forgiveness of self and others is a major point to be discovered at this time. Being understanding is more that you'll have to learn and you've already started today. Events happen to bring these items to your attention, generally in the form of your family, especially if you have children. Family is the part of your life you can't and don't want to turn away. Life, sometimes, makes you have to learn your lessons. It can be a hard task master.

Virgo (August 23-September 22)

Here comes the psychic in full force again just like you've come to enjoy. A mystical quality invades your dreams, thoughts and emotions at this time. Spiritual learning comes easily now in everything you do, because you can recognize it easily as being spiritual. Taking time with those you love and understanding why you feel as you do where they're concerned gives you a warmer feeling about life. Friends and family seek you out for guidance which they can trust. Try to enjoy this day with those friends and family or take the time to spend some time with you exclusively. You'll be glad you did because you can reminisce over your good times too.

Libra (September 23-October 22)

Whatever you're doing today and what you think needs to be done isn't necessarily easy because you can't seem to focus on the problem. From planting flowers to making dinner, your mind is running away from anything you consider concrete. Decision making should have been left in bed this morning. Enjoying your life should be the only item you're looking forward to today. You'll note that you feel out of this world but in a good way. That's because your inner psychic has come to play today. Take some time to meditate or pray if that's what you call it. Ask the hard questions. The answers will come to mind immediately.

Scorpio (October 23-November 21)

Nighttime dreams make you feel there's something you're not getting right now. Examining them upon awakening you find there is a pattern that emerges. The psychic edge of things is giving you the answers you desire from some stressful issue you're going through. Knowing that the spiritual side of life is sending you answers floods your system with joy and fear because you know you have help from an all-knowing entity. The only problem is you have to put in the effort to understand what you're being told and shown. Dreams carry day time issues into the night so that you can use them to assist you in finding your way.

Sagittarius (November 22-December 21)

Emotional release comes in the form of playing with your lover today. Staying close to home for a day relaxing is the best thing you can do for yourself now. Watch out that your lover doesn't get too pushy thinking that you should adhere to their suggestions. That won't work for long with you. Your home motivates you now. Being able to invest time in it not for work but for relaxation gives you the opportunity to really be thankful for what you've accomplished. A home being your castle is true in this case. Get ready for company. At least you get to choose who they are.

Capricorn (December 22-January 19)

You must feel as if you're riding a roller coaster. Yesterday, practicality and harmony in the house made you feel more secure. Today, daydreams and mystical feelings keep you on your toes. Not really knowing where you're at in life can be worrisome for you. The real is what you're generally concerned with, not anything psychic, you think. Work, ambition and achievement mean so much more than most other things now. If you could work twenty-four-seven you probably would but that would leave the home life in turmoil. Needing everything accounted for and in its place is what you crave.

Aquarius (January 20- February 18)

You may make a work appointment today but other than that you tend to stay with friends and family. Perhaps you may discuss some work issues there too. At any rate, take time to enjoy your off time too even though your mind is racing with what you need to be doing for your job later. Travel may come up in conversation and you may be called upon to do the traveling. See if you're significant other would like to go to and make a mini vacation out of it. You may find that you're the center of attention at work. That's why you're blending work with your day off.

Pisces (February 19-March 20)

Instinct and emotion guide your life today. Forgiveness and understanding of others frailties arouse deep feelings. Having a knack for getting things done after you think them through is why others seek you out now. Today should be a day you use to bring friends and family closer. Maybe a cookout is something all would love. Ribs on the bar b may be just the thing to bring you closer together while cooking all day. Have some sweet tea and settle into outdoor games of Croquet and Horseshoes to make everyone laugh and converse.
