

Stars

Aries (March 21-April 19)

You might like to ignore responsibilities and do some socializing, but realities demand that you tend to business for the moment. Your superiors value your ability to make practical decisions. Others may seek you out for advice concerning business matters. You could be put in charge to make decisions that affect conditions in the workplace. You are most persuasive and you will find others most cooperative. You possess a powerful, persistent drive and are a hard, steady worker. You have a sense of mission and mystery. You are willing to do the work that others would not go near. A young person is monitoring your activities today. Whether you realize it or not, you are being an important mentor. Enjoy dinner out-of-doors this evening.

Taurus (April 20-May 20)

Intense focus on your career can find you mercilessly cutting back and getting down to the essentials regarding your professional direction. You will have a sense of being almost driven to pursue your course and succeed. Perhaps you will want to take a class or have someone guide you with a new skill or technique. This could be a time when what you think you need for inner growth and change may not agree with your progress in the business world. You may not appreciate all of the intensely personal stuff that is boiling up now. It is best to get your lessons learned now—it will help to decrease frustrations later. Deal with situations as they appear and ask questions if someone is not easily understood. Relax with your loved one this evening.

Gemini (May 21-June 20)

Philosophizing, or expressing your theories, is an inborn talent and you are in love with grand gestures and long thoughts. Someone may bring up a subject of interest today and you may want to explore. You enjoy fair, just, frank and broadminded persons as well as long conversations with your friends touching on a variety of subjects this afternoon. You dare to dream big. You are very tolerant and accepting of differences and may find yourself promoting your own ideas much of this day. Your sense of inner direction is good and should lead to some ideas for future monetary opportunities. Later today you will be able to make a great deal of headway on your personal projects. You will find a way around almost any obstacle.

Cancer (June 21-July 22)

Obtaining and exchanging information takes on an emotional significance for you. Learning the experience of others will help you in your own decision making. The power of organization on a social scale regarding business, politics, etc., seems to take on an important aspect. This may mean that you are a concert pianist and have social obligations to play before a charity or perhaps some performance before an educational group. Professionally speaking, it is very important to exhibit superior social skills, particularly if you travel and perform out of the country. Most certainly, this is a wonderful time to discipline your mind through study, education or writing. You will have many experiences to write about and the outcome will be intriguing and positive.

Leo (July 23-August 22)

Respect, status and achievement are central goals you have been wanting and today may prove to gain you insights along that line. You are good when you work with teammates but to lead a team calls for a whole different bag of tricks. Your mental energies, ideas and thoughts, may undergo some transformation. There is a natural sense of growth and development present. You are a productive thinker and you like to respond in positive ways to the needs of your friends and family. You are a good example for others to follow. A family discussion this evening may call for your administrative abilities. You will help to make the right decision, particularly when you remove emotions from the process. Others are inspired by your positive attitude.

Virgo (August 23-September 22)

Communications could be strained this morning. There could be a misunderstanding that needs clearing up—ask questions and remain respectful. By the afternoon all will be at ease. Everything will transform and begin to work together. You may discover communication is more expressive. Something lost is found by another person. A difficult project can be finished by you. A lost customer will find the right aisle or item, thanks to you. All is working together to make things work out right, particular when the participating parties are patient and have taken care of any physical problems. Your occupation will eventually bring about some incredible results. This evening is a good time to work in the garage or in a garden.

Libra (September 23-October 22)

You can put your ideas into words and describe or analyze situations for yourself and others quite well. This could involve teaching and lecturing, etc. Chances are you work in one of the many service occupations, taking care of and looking after people. A bout of philosophy or even a little religion could have an enormous effect on your career during this time. Lasting values—whatever you find to be true and lasting—can guide you now as you open up avenues that have remained blocked. Outer circumstances are favorable and it should be easy for you to push forward in projects and in all aspects of your life. Things may seem almost magical in the way they work out at this time. You will successfully organize and accomplish your projects this evening.

Scorpio (October 23-November 21)

Obtaining and exchanging information is an important aspect today. You may be very forceful in what you say and think just now. With all of this emotional energy, you could speak or communicate very well—you have a great mental drive. Your positivism lets you get right to the point and you have little patience with those who do not tend to business. You have plenty of enthusiasm and warm up to things and people quickly. You have an inner self-confidence that burns with its own light. Figuring things out and looking for the best solution to problems are just where you love to spend your energies. You have a heightened interest in health and diet, as well as an urge to get your personal things organized into a rational system.

Sagittarius (November 22-December 21)

A supervisor or some senior worker steps in to create some sort of change in direction today. This is a go-with-the-flow sort of day and gives you plenty of opportunities for success in problem solving. Later today, you may consider restructuring your finances. You want a better sense of personal security for the future. Just as important is the way you are using all your resources. Your financial obligations may or may not increase just now, but your way of handling these obligations will change—for the better. However, because of some inside information, it looks as though your finances will show significant improvements—soon. Take time to review your goals and perhaps some of the methods by which you reach those goals.

Capricorn (December 22-January 19)

Your willingness to give credit to others that deserve recognition is commendable and higher-ups have noticed. You may also go beyond the assigned and expected tasks asked of you. Help may be needed and you just jump in and lend a hand. Your eagerness to take the risk and make a decision—above and beyond your job identity—will bring you recognition. Today is a self-expression day. You will find others listening to your particular ideas. A good conversation with those you love is possible this evening. Teach others to share their experiences by listening—you enjoy your family. Seek advice and support from your family and encourage your family to seek your advice and support as well. Family members enjoy a strong bond.

Aquarius (January 20- February 18)

Taking care of the necessary parts of life—health, work and such—is the greater preoccupation just now. Sorting things out and getting them organized to utmost efficiency keeps you busy. When there is an opportunity to move forward in your business or in your work, do not hesitate to take on the new. These additional activities will not distract you from keeping a good balance in your life. You have all the drive and energy you could want—it should be easy to focus this energy. The path is open and clear. Marriage and other close relationships give rise to great expectations particularly now, as a new cycle gets underway in your life. Enjoy and appreciate your ties to others; seek and promote harmony in the interaction between people. Be good to you.

Pisces (February 19-March 20)

This is a period of great mental activity and heightened communication with others. Your own growth and success may be linked to questions of security—home and family, in particular. Faith, family, friends, mental and physical fitness, volunteer services and finances are the subjects you will want to keep your mind keyed into while you are learning to balance your energies. These are the things that are needed for good balance. This may be a time during which you can get ahead by finding your limits and establishing a home base from which to move forward. Don't be afraid to project your image. Group cooperation, perhaps teaching or lecturing, could further your career now. Prepare yourself for a good tomorrow by doing the best you can today.
